## At Last... A Computer Book For The Rest Of Us!

You've seen the books for "dummies" and you're beyond that - you know how to turn a computer on, check your email, and surf the Internet. There are books for geniuses that are over-detailed on technology you don't care to know. But what about the rest of us? Why can't there be a book to help in buying a new computer or help you protect your computer and data without all the useless information?

Jim White set out to solve this problem with the publication of his latest book, ***Just the Computer Essentials***. This 288-page fun and informative book is jam-packed with answers to common questions that the everyday computer user is looking for. ***Just the Computer Essentials*** was written around Windows Vista™, Microsoft's new operating system and the version of Windows you'll most likely see on your next computer. The book's subtitle lets you know exactly what you're getting: *A Plain English, No-Nonsense Guide to Buying and Maintaining a PC Running the Windows Vista™ Operating System for Your Home or Home Office*.

***Just the Computer Essentials*** is 34 informative chapters written in more of a conversation than a manual to help ensure that it makes sense for the average Joe. And, because sometimes pictures speak louder than words, the 215 well-placed screen shots make sure you can follow along with every step of the way. ***Just the Computer Essentials*** will:

- Help you understand exactly what you need to know when buying a new PC
- Lead you in protecting your computer from dangers such as viruses, spyware, spam and phishing
- Show you how to set up a backup strategy to safeguard all your important files
- Coach you how to recover your computer from system problems - starting with the least intrusive all the way to disaster recovery

- Teach you how to migrate your files and settings from one computer to a new PC running the Windows Vista™ operating system

**Just the Computer Essentials** is available now through Ingram Books or can be ordered from Amazon.com or Barnes and Noble.com. For wholesale pricing of 25 books or more, please contact **IROL Press** directly at [service@irolpress.com](mailto:service@irolpress.com).
